PROGRAM-PROBLEMS LIST
APRIL-JUNE, 2006**

Social Issues

INDEPENDENT LENS “Almost Home”

Shot in a nursing home, this program tells the real stories of aging: unflinchingly honest stories of elders, children of elders, nursing assistants and one visionary nursing home director.

Sunday, Ap. 9, 2006 11 p.m. 90 minutes PBS

THE ARMENIAN GENOCIDE

The International Association of Genocide Scholars affirms that the number of Armenian deaths at the hands of the Ottoman Turks during World War I was more than a million. Featuring extensive never-before-seen footage, this program shares one of the largely untold stories of the 20th century, detailing what happened and why. The documentary also explains why, to this day, the Turkish government denies that the Armenian genocide took place.

Monday, Ap. 17, 2006 9 p.m. 60 minutes PBS

PUBLIC VOICE 2005: IMMIGRATION

The 2005 edition of A PUBLIC VOICE focuses on the key issues of immigration, including the economic impact, national identity, culture, education and national security. The program is again moderated by Emmy award-winning journalist Frank Sesno, who served as CNN’s Washington Bureau Chief and senior vice president. (Repeated Sunday at 3 p.m.)

Tuesday, May 2, 2006 9 p.m. 60 minutes APT

FRONTLINE “Can You Afford to Retire?”

The baby boomer generation is headed for a shock as it hits retirement: Boomers will be long on life expectancy but short on income. In addition to Social Security, the pillars of retirement income for Americans have been either lifetime corporate pensions or employee-contribution plans such as 401Ks. But both retirement strategies are in trouble. Buffeted by pension cuts, corporate bankruptcies and the 2001-2002 stock market crash, most boomers now expect to be working into their retirement years.

Tuesday, May 16, 2006 9 p.m. 60 minutes PBS

AT ISSUE--IMMIGRATION #1826

This program looks at the local impact of national immigration issues. (Repeated Sunday at 4:30 p.m.)

Thursday, May 18, 2006 8 p.m. 30 minutes WTVP

BOOMERS! REDEFINING LIFE AFTER FIFTY “Retirement Reconsidered”
National surveys show that between 75 and 80% of Boomers say they plan to work beyond age 65. Today, “retirement” is not an event but a process, an evolving chapter that may include part-time work, starting a business, or a late-life career change to pursue a passion. Today, we’ll meet people going through it, get advice on how to succeed at it, and find out whether the world of work is ready for the revolution.

Sunday, May 28, 2006 5:30 p.m. 30 minutes APT

INDEPENDENT LENS “The Devil’s Miner”

Living in poverty with their mother in the mountains of Bolivia, 14-year-old Basilio and his 12-year-old brother, Bernardino, work long shifts in the Cerro Rico silver mines, braving deadly conditions to earn enough money to attend school.

Sunday, May 28, 2006 11 p.m. 90 minutes PBS

BILL MOYERS ON FAITH AND REASON

Bill Moyers returns to PBS with a seven-part series focused on the hot-button issues of faith and reason. Are fear and violence the inevitable consequence of clashing beliefs, or is a more tolerant world possible? Moyers will explore the ideas of leading thinkers on the relationship between religious fundamentalism and democracy, equality and human rights.

Sundays beginning June 25, 2006 10 p.m. 60 minutes each PBS

Environment

JEAN-MICHEL COUSTEAU: OCEAN ADVENTURES

A generation ago, Jacques-Yves Cousteau revealed the oceans’ mysteries to millions of landlocked PBS television viewers. Now, 30 years later, Jacques’ son Jean-Michel Cousteau and his team of “oceanauts” have set sail to explore dangerous and spectacular locales across the globe. In this first of a two-part pioneering exploration, “Voyage to Kure,” the Cousteau team sails to the Northwest Hawaiian Island archipelago, the most remote island group in the world. There, they discover diverse wildlife populations above and below the sea and investigate these species’ fight against extinction and the devastating effects of pollution, mining, fishing and development.

Wednesday, Ap. 5, 2006 7 p.m. 60 minutes PBS

NATURE “The Queen of Trees”

The story of the sycamore fig and its tiny pollinator describes one of the most remarkable symbiotic relationships in the natural world—between a tree and a wasp. It is a triumph of co-evolution, told for the first time in a way that combines intricate detail with the grandness of Africa.

Sunday, Ap. 9, 2006 7 p.m. 60 minutes PBS

SAVE OUR LAND, SAVE OUR TOWNS

Although urban sprawl seems inevitable to some, this new special offers constructive suggestions on how people can save their cities, towns and countryside from a future filled with strip malls and subdivisions. Pulitzer Prize winner and small-town newsman Tom Hylton explores the growing concern among ordinary citizens about overdevelopment as well as its effect on traffic congestion, open space and inner cities.

Sundays, Ap. 9 & June 4, 2006 9:30 & 11 p.m. 60 minutes APT

NOVA "Hunt for the Supertwister"

A powerful tornado is a terrifying phenomenon that continues to defy decades of scientific efforts to predict it. During one of the worst tornado seasons on record, a NOVA camera team chased across the Midwest, capturing hair-raising footage of twisters in action. (Repeated Sunday at 3 p.m.)

Tuesday, Ap. 11, 2006 7 p.m. 60 minutes PBS

NOVA "Dimming Sun"

As global warming turns up the heat, researchers are stunned to discover that our planet is actually growing dimmer. Increasing air pollution allows less and less sunlight to reach earth's surface, a "global dimming" that's linked to severe droughts. In an even more alarming twist, there is concern that solving the dimming problem could greatly accelerate global warming, melting ice caps and flooding coastal cities. NOVA examines this baffling climate conundrum and follows the implications of the discovery for our planet's future. (Repeated Sunday at 3 p.m.)

Tuesday, Ap. 18, 2006 7 p.m. 60 minutes PBS

JOURNEY TO PLANET EARTH "State of the Planet's Wildlife"

The ninth program in this acclaimed environmental series is an investigation of one of the most critical questions of the 21st century: Why are nearly half of the world's wildlife species facing extinction within the next few decades? Specific case studies explore the loss of wildlife as a result of climate change, population and poverty pressures, poaching, and the international bush-meat trade.

Academy-Award winner Matt Damon hosts and narrates.

Tuesday, Ap. 18, 2006 9 p.m. 60 minutes PBS

AMERICAN EXPERIENCE "The Alaska Pipeline"

Bringing Alaskan oil to market required one of the greatest engineering feats of the 20th century. For more than three years, workers battled brutal Arctic weather to construct an 800-mile pipeline that would traverse three mountain ranges, 34 rivers and 800 streams, and that would withstand earthquakes and subzero temperatures. The men, machines and money the pipeline brought to Alaska would forever transform what had long been regarded America's last great wilderness.

Monday, Ap. 24, 2006 8 p.m. 60 minutes PBS

REMEMBERED EARTH: NEW MEXICO'S HIGH DESERT

Filmmaker John Grabowska and Indian author N. Scott Momaday present a vision of hope for humankind's relationship to the natural world by interpreting the myth, beauty and power of a scarred but sacred landscape of the American West. (Repeated Wednesday at 9:30 p.m.)

Wednesday, May 10, 2006 9:30 p.m. 30 minutes PBS

CASCADIA: THE HIDDEN FIRE

Tonight's program looks at the hidden danger facing Cascadia—the mountainous coastal area from Northern California to British Columbia.

Tuesday, May 23, 2006 60 minutes APT

NATURE "Katrina's Animal Rescue"

They're the flood victims who were left behind—the tens of thousands of household pets separated from their owners in the aftermath of Hurricane Katrina. Tonight's program takes viewers to the front lines of the battle to rescue these helpless animals—before it's too late.

Sunday, June 11, 2006 60 minutes PBS

Health/Science/Technology

THE EYES OF NYE "Transportation"

Factories and "big industry" used to be the primary sources of pollution in America. Not anymore. Now transportation is the single largest cause of air pollution. What can we do as individuals? Turns out, quite a lot.

Sunday, Ap. 2, 2006 10 p.m. 30 minutes APT

NOVA "Voyage to the Mystery Moon"

NOVA follows a voyage of discovery, from the laboratory to the control room to the surface of Titan itself. Orbiting Saturn, more than a half-billion miles from Earth, an orange moon named "Titan" keeps many secrets that may hold the key to the origins of life. This mysterious moon is one of only four astral bodies in the solar system to have an atmosphere, and the only one believed to resemble that of early Earth. (Repeated Sunday at 3 p.m.)

Tuesday, Ap. 4, 2006 7 p.m. 60 minutes PBS

HEALTH SENSE

This 13-part series demystifies the health care profession while putting a human face on illness. The series provides information concerning the latest research and medical advancements, offers inspiring personal stories of patients and their medical teams overcoming extraordinary situations, and has experts weigh-in on the issues making headlines.

Sundays, Ap.-May, 2006 2:30 p.m. 30 minutes each APT

FRONTLINE "The Meth Epidemic"

Speed. Meth. Glass. On the street, methamphetamine has many names. What started as a fad among motorcycle gangs in the 1970s has become big business.

Hundreds of illegal meth labs are now operating in the western United States, and the effects are sweeping the nation. In a reporting partnership with *The Oregonian*, FRONTLINE investigates America's addiction to meth and exposes the inherent conflict between the illegal drug trade and the legitimate three-billion-dollar cold remedy business.

Tuesday, Ap. 4, 2006 9 p.m. 60 minutes PBS

AMERICAN EXPERIENCE "The Boy in the Bubble"

When David Vetter died at age 12, he was already world famous: He was the boy in the plastic bubble, mythologized as the plucky, handsome child who had defied the odds. His life story is a tragic tale that pits ambitious doctors against bewildered, frightened young parents. It is a story of committed caregivers and resourceful scientists on the cutting edge of medical research. The film raises some of the most difficult ethical questions of our age.

Monday, Ap. 10, 2006 8 p.m. 60 minutes PBS

RX FOR SURVIVAL—THE HEROES

This inspiring program presents the stories of unsung champions who protect people worldwide from the ravages of threatening disease. Using highlights from the acclaimed six-hour RX FOR SURVIVAL series, this new two-hour special focuses on the individual heroes whose tireless perseverance saves millions of lives across the globe. From young polio warriors in India to armies of grandmothers in Nepal, the program takes viewers inside the stirring campaigns that have brought renewed faith to poor communities from Africa to South America. This unique special is the true story of individuals whose creativity, leadership and determination are finally giving hope to people who have known only poverty and disease, but who can now dream of a safer and healthier future.

Wednesday, Ap. 12, 2006 8 p.m. 120 minutes PBS

THE EYES OF NYE "Global Climate Change"

There's no question that the world is getting warmer. Are humans responsible? Is the rise in temperature a product of the Industrial Revolution, the burning of fuels, and the modern propensity for driving down to the mini-mart in a car the size of a woolly mammoth? Or is this just part of a natural global cycle?

Sunday, Ap. 16, 2006 10 p.m. 30 minutes APT

AMERICAN EXPERIENCE "The Great San Francisco Earthquake"

In April 1906, San Francisco was destroyed by earthquake and fire. Thousands were killed, and tens of thousands were left homeless. But three years later the city had been rebuilt from the ashes. This film looks at the destruction and rebirth of San Francisco, and how it became a part of American folklore.

NOVA “Newton’s Dark Secrets”

Often hailed as both the first modern scientist and the last of the ancient magicians, Isaac Newton reduced nature’s chaos to a single set of mathematical laws. More than three centuries later, those laws still govern the way we analyze and forecast the motions of everything from roller coasters to comets. NOVA

explores how Newton became the giant upon whose shoulders all later scientists found a place to stand. (Repeated Sunday at 3 p.m.)
Tuesday, June 20, 2006 7 p.m. 60 minutes PBS

A LION IN THE HOUSE, AN INDEPENDENT LENS PRESENTATION

This inspiring, harrowing and intimate series follows five children as they fight against cancer with the help of their families, nurses and doctors over a span of six years. A groundbreaking journey, the four-hour series looks at how families respond to crises, how courage is found in unlikely places, and how the humor and the energy of youth can be a powerful medicine. (The series will conclude tomorrow night.)

FRONTLINE “The Dark Side”

On Sept. 11, 2001, deep inside a White House bunker, Vice President Dick Cheney was ordering U.S. fighter planes to shoot down any commercial airliner still in the air above America. At that moment, CIA Director George Tenet was meeting with his counter-terrorism team in Langley, Virginia. Both leaders acted fast, to prepare their country for a new kind of war. But soon a debate would grow over the goals of the war on terror and the decision to go to war in Iraq. FRONTLINE’s investigation of the ensuing conflict includes more than 40 interviews and thousands of pages of documentary evidence.
